

Meet the Mining Futures Collaborative industry partners:

Ascot Resources is a Canadian mining company headquartered in Vancouver, British Columbia. Ascot is the 100% owner of the Premier Gold mine and Red Mountain Project, which are located on Nisga'a Nation Treaty Lands, in the prolific Golden Triangle of northwestern British Columbia near Stewart, BC.

**CENTRE OF
TRAINING
EXCELLENCE
IN MINING**

The B.C. Centre of Training Excellence in Mining (CTEM) is a province-wide virtual hub that facilitates collaborative and innovative training opportunities for the British Columbia mining industry (inclusive of mineral exploration, mining, and aggregate operations), job seekers, and communities. CTEM connects industry, learners, job seekers, training providers and communities to meet their respective needs by playing a leading role in understanding industry skills requirements, facilitating industry-driven training, building, and supporting strategic partnerships.

Fanning is the world's largest Caterpillar dealer delivering excellent service for over 90 years. Fanning sells, rents and provides parts and service for equipment and engines to customers in various industries, including mining, construction, petroleum, forestry and a wide range of power systems applications.

Hy-Tech Drilling is an innovative, capable, and accountable diamond drilling partner to leading mining companies across the Americas and Europe. We enable our clients to access critical minerals more efficiently and with reduced environmental impact, supporting the global transition to a more sustainable future. Guided by a win-win-win approach, we create value for our people, our customers, and the communities where we work.

mineralsed

Mineral Resources Education Program of BC

MineralsEd is an educational organization operating in British Columbia that is dedicated to encouraging and supporting Earth science, mineral resources and mining education in schools. Our goals are to foster a well-informed public through school education based on accurate and balanced minerals information, and to stimulate young peoples' interest in minerals industry careers.

Newmont

Newmont is the world's leading gold and metals producer and is widely recognized for its principled environmental, social, and governance practices. The company's Brucejack and Red Chris mines are located in the stunning northwest region of British Columbia. Brucejack is a high-grade underground gold mine located about 65 kilometers north of Stewart and on and near the Traditional and Ancestral lands of the Nisga'a Nation, Tahltan Nation, Gitanyow Huwilp, and the Tsetsaut Skii km Lax Ha. Red Chris is a large-scale open pit copper-gold mine with block cave potential in Tahltan Territory. Both sites operate on a fly-in/fly-out basis with pick-up points across Western Canada. Newmont works closely with local First Nations communities to build respectful partnerships and celebrate our shared community.

Procon

Procon is one of the leading mine development contractors in North America. We are specialized in underground mine development, contract mining, underground excavations, civil tunneling and mining related construction projects. Centered by our people, our company culture is driven on the tenets of integrity, innovation, relationships and performance for our clients, business partners and the communities we work in. As a specialty contractor in a safety-sensitive business, our workforce safety is the foundation for everything we do. Procon has been registered with the Canadian Council of Indigenous Business and is the only underground mining contractor to receive a Silver Certification in Progressive Indigenous Relations.

SKEENA GOLD + SILVER

Skeena is a leading precious metals developer that is focused on advancing the Eskay Creek Gold-Silver Project – a past producing mine located in the renowned Golden Triangle in British Columbia, Canada. Eskay Creek will be one of the highest-grade and lowest cost open-pit precious metals mines in the world, with substantial silver by-product production that surpasses many primary silver mines. Skeena is committed to sustainable mining practices and maximizing the potential of its mineral resources. In partnership with the Tahltan Nation, Skeena strives to foster positive relationships with Indigenous communities while delivering long-term value and sustainable growth for its stakeholders.
